**COMMUNITY SERVICE** : Put on your painter's caps! How many Rotarians does it take to paint the "Kids Place" at Harbor Lights? We might never know unless you step forward and volunteer to work with Community Service to help direct a project which will involve working with a group of parents and children and perhaps other non-profits and schools to paint an existing child care facility. Please talk to Bob R. or Lehua about this opportunity to serve and help our community!
